

## What Is a Family-School Compact?

A Family-School Compact is an action plan to enhance schools and promote student success. The Family-School Compact describes how Hallsville ISD schools and families can work together to help learners achieve the State's high standards. It outlines how parents, school staff, and students will share responsibility for improved student academic achievement.

Our Compact describes

- what the school will provide to students and parents,
- how communication will take place, and
- how teachers will help students develop the necessary skills. It outlines what strategies families can use at home to support their child's learning.

These components are linked to our Campus Improvement Plan.

### Jointly Developed

Compacts are developed with parents, staff, and community members prior to the start of school through district and campus site based decision making committees. Our compact is revised based on these discussions and on feedback from surveys.

Compacts are then distributed at the beginning of the academic year.

Feedback, and requests for any additional support, is welcome at any time.
